RONSHEE CHAWLA

Webpage: https://ronshee.github.io

E-mail: ronsheechawla@utexas.edu Phone number: +1 (626) 365-2555

EDUCATION

- **University of Texas at Austin** (UT) August 2017 – Present
  PhD in Electrical and Computer Engineering (Focus on Machine Learning)
  Advisor: Prof. Sanjay Shakkottai
  Current GPA: 4.0/4.0

- **University of Texas at Austin** (UT) August 2017 – May 2019
  MS in Electrical and Computer Engineering
  GPA: 4.0/4.0

- **California Institute of Technology** (Caltech) September 2016 – August 2017
  Graduate Student in Electrical Engineering
  GPA: 3.7/4.0

- **Indian Institute of Technology (IIT) Indore**, India July 2011 – May 2015
  B. Tech. in Electrical Engineering
  Advisor: Prof. Prabhat K. Upadhyay
  GPA: 9.89/10.0

HONORS AND ACHIEVEMENTS

- First rank in Electrical Engineering PhD Qualifying Exam at Caltech, January 2017.
- **President of India Gold Medal**, first rank in IIT Indore, class of 2015.
- DAAD WISE scholarship for summer internship at RWTH Aachen University, Germany, May 2014 – July 2014.
- Offered summer fellowship by Indian Academy of Sciences, May 2014 – July 2014 (declined).
- Academic Excellence Awards, IIT Indore, 2012 – 13, 2013 – 14 and 2014 – 15.

PAPERS UNDER REVIEW

- *Multi–Agent Low–Dimensional Linear Bandits*
  R. Chawla, Abishek Sankararaman, Sanjay Shakkottai
  Under review in IEEE Transactions on Automatic Control

CONFERENCE PAPERS

- *The Gossiping Insert–Eliminate Algorithm for Multi–Agent Bandits*
  R. Chawla*, Abishek Sankararaman*, Ayalvadi Ganesh and Sanjay Shakkottai (* Equal Contribution)
  International Conference on Artificial Intelligence and Statistics (AISTATS) 2020

- *Outage Performance and Location Optimization for Traffic–Aware Two–Way Relaying with Direct Link*
  Suneel Yadav, R. Chawla and Prabhat K. Upadhyay
  International Conference on Signal Processing and Communications (SPCOM) 2016

- *Outage Analysis of Cellular Two-Way Relaying with Spectrum Sharing in Nakagami–m Fading*
  R. Chawla, M. Mounika Reddy and Prabhat K. Upadhyay
  Proceedings of 18th International Symposium on Wireless Personal Multimedia Communications (WPMC) 2015

Internship Experience

- **Automatic Extraction of Layer-specific Data-flow Configurations for Automatic Scheduling and Mapping of Kernels for the Layers Architecture**
  RWTH Aachen University, Germany May 2014 – July 2014
  I was assigned the task to perform classification of data flow operations in the Layers architecture. A parser was designed in C++ which extracted relevant features from the output file of computation layer, so that it can be used to route source-destination pairs across the layers (computation, communication and memory access) to create final automatic scheduling tool for all the layers.

Work Experience

- **Scientist-B** August 2015 – May 2016
  Aeronautical Development Establishment (ADE), DRDO, Bengaluru, India

Teaching Experience

- Teaching Assistant for the class EE 351K *Probability, Statistics and Random Processes* at UT, Fall 2017.
- Teaching Assistant for the class EE 381V *Online Learning* at UT, Fall 2019.

Talks

- *The Gossiping Insert–Eliminate Algorithm for Multi–Agent Bandits*
  Invited talk at Vrbo, Austin, TX February 2020

Skills

- **Programming languages**: C++, Python
- **Softwares**: MATLAB
